love your journey

senz°

the original storm umbrella

It did take a couple of thousand years since the umbrella was first invented, but finally senz° came along.

Senz° has reinvented the umbrella to your advantage. Thanks to its asymmetrical shape, the senz° umbrella simply floats through any storm.

We use recycled and reusable materials as much as possible. But what makes a senz° truly sustainable is that it is so strong that it lasts for years.

- ✓ High-Quality
- ✓ Innovative
- ✓ Sustainable
- ✓ Dutch Design
- ✓ Memorable
- ✓ Stormproof Excellence

senz° cooltech

As our climate changes, so do the demands on everyday protection. This inspired the development of senz° cooltech.

Powered by Cooltech technology, senz° fabrics help protect against UV exposure and heat, keeping the space beneath the umbrella noticeably cooler by blocking infrared radiation.

Protection from sun, heat, rain and wind — innovation designed for a changing climate and a more sustainable future.
